Feature Articles

Alley, Lee, and Stephen D. Willits. "ISDN—What It Means to Information Technology Administrators on Campus," Fall, pp. 9-16.

Bers, Trudy, and Mary Mittler. "Academic Computing: From Chaos to Coordination," March, pp. 28-31.

Blackmun, Robert R., Jeff N. Hunter, and Anne S. Parker. "Organizational Strategies for End-User Computing Support," Fall, pp. 33-43.

Brush, Leonard M., and Anthony J. Schaller. "Leveraging Relational Technology through Industry Partnerships," Fall, pp. 17-24.

Cross, Cynthia, Karen Dickinson, and Krystal Hall. "The Information Center Role in Delivering Student Data at the University of Michigan," January, pp. 22-28.

Diffenbach, John. "Expert Systems Could Be a Valuable New Tool for Enrollment Management," March, pp. 22-26.

"Evaluation Guidelines for Institutional Information Technology Resources," Winter, pp. 51-54.

Glover, Robert H. "Realizing the Benefits of Information Technology Investments on Campus," Winter, pp. 17-25.

Harper, Bruce, and Wayland Winstead. "On-Line Access to University Policies and Procedures," May, pp. 28-33.

Haugen, Elliott J., and Brian P. Nedwek. "Using Prototyping and Simulation as Decision Tools in a Purchased-Software Implementation," Winter, pp. 11-16.

Heidel, Linda. "Microcomputer User Support Programs in a University Medical Center," January, pp. 30-34.

Heterick, Robert C., Jr., Gerald McLaughlin, and Mark A. Olson. "Report on the 1987 CAUSE Publications Survey," Fall, pp. 44-47.

Kent, Diane, and David Smithers. "JAD: Can a User Committee Design a System in Four Days?" May, pp. 6-11.

Meyers, Edmund, Jr. "A Data PBX as an Alternative LAN," January, pp. 12-17.

Miselis, Karen. "User Leadership in the Design and Implementation of a College Information System," Winter, pp. 38-43.

Muffo, John, and Mark Conner. "Unexpected Outcomes of Computer Usage in Higher Education," March, pp. 6-11.

Nicholes, Walter. "End-User Use of Data Base Query Language: Pros and Cons," January, pp. 6-11.

Ridenour, David. "Allowing Students Read-Access to Their Own Computer Records," March, pp. 12-16.

Robinson, Robert. "The Changing Agenda for Information Services: A Leadership Challenge," May, pp. 12-17.

Ryland, Jane N. "Executive Perspective: An Interview with Joe B. Wyatt," Fall, pp. 25-27, 31-32.

Schulden, Louise, and Clint Sidle. "Great Expectations: Distributed Financial Computing at Cornell," Winter, pp. 33-37.

Smallen, David L. "Administrative Microcomputing: Roads Traveled, Lessons Learned," May, pp. 22-27.

Current Issues

Barone, Carole A. "End-User Computing: A Multifaceted Challenge," Fall, pp. 3-5.

Carroll, George A. "Let's Develop More Systems Which Improve Service to Students," January, p. 3.

Carroll, George A. "Vendor Gifts—Preventing Problems," Fall, p. 8.

Chambers, John W., and Norma Brenner Holland. "DBMS: Making the Choice," Fall, pp. 6-7

Dolence, Michael. "Justifying Technology Resource Allocations—A Course-by-Course Approach," Winter, pp. 3-5.

Hill, James. "Are Networks Paying Off?" Winter, pp. 9-10.

Lukesh, Susan S. "Conversion of Data into Information—Or Now That the Administrative Systems Are in Place, How Do You Fully Use Them?" Winter, pp. 6-8.

May, James H. "The Changing Role of Data Processing Managers and Users," May, pp. 3-4.

Sholtys, Phyllis A. "Implications of Choosing a Computer Network Strategy," January, pp. 4-5.

Smallen, David. "How Much Computing Is Enough?" March, pp. 4-5.

Small College Computing

Galvin, Wayne W. "Journey to End-User Computing—Aspirations and Reality," Winter, pp. 26-29.

Viewpoint

Alexander, George. "Should Students Permit the Registrar to Access Their Records?" Winter, p. 47.

Atwell, Robert H., and Madeleine Green. "The Case for Leadership Development," March, p. 21.

Carlson, William. "The Liberal Arts College in the Information Age: An Appropriate Response to Information Technology," Fall, pp. 50-53.

Markee, Neil D. "Computerization II—The Next Stage," Winter, pp. 48-50.

Thomas, Charles R. "Applications Systems Obsolescence: The Proprietary Solution," Winter, pp. 44-46.

Book Review (Publications)

LeDuc, Albert L. Reviewed *Peopleware: Productive Projects and Teams*, by Tom DeMarco and Timothy Lister. Fall, pp. 48-49.

Pollock, Kenneth G. Reviewed *INFO-TRENDS: Profiting from Your Information Resources*, by David A. Marchand and Forest W. Horton, Jr. Winter, pp. 55-56.

Thomas, Charles R. Reviewed *The Portable Office*, by Jefferson D. Bates and Stuart F. Crump, Jr. May, p. 5.

Campus Computing Environment

California State University, San Bernardino. March, pp. 18-20.

Grinnell College. May, pp. 18-20.

McMaster University. January, pp. 18-20.

University of Scranton. Winter, pp. 30-32.

Vanderbilt University. Fall, pp. 28-30.
